Prevention of Human Trafficking: How Your Hotel Can Make an Impact

Last week, thanks to a partnership between OH&LA and Businesses Ending Slavery & Trafficking (BEST), many attended a webinar outlining trafficking prevention and complimentary training now available to all OH&LA member property employees. Human traffickers continue to plague businesses across the country as they exploit victims in the privacy of hotel rooms. With proper training and protocols to recognize and prevent these horrendous crimes, hotels can be a victim's hero.

AHLA Survey - Congress MUST Act!

With just two weeks until the election and a stalemate in Washington over an additional economic stimulus bill, [a new survey](#) commissioned by AHLA shows that Americans strongly support Congress remaining in session until an agreement can be reached.

The new survey comes on the heels of an announcement Tuesday morning by Senate Majority Leader Mitch McConnell stating that the Senate will vote on new funding for the Paycheck Protection Program (PPP) sometime next week.

Key findings of the survey include:

- Voters name travel and tourism as the industry most affected by the economic downturn caused by COVID-19
- 93 percent of voters are concerned about the effects of COVID-19 on small businesses

- 90 percent support Congress passing an economic stimulus bill to support small businesses and protect jobs
- 89 percent say Congress should remain in session until reaching an agreement

We will continue advancing our message that Congress must together to help the most affected small businesses and employees, including and especially, ours to survive this crisis.

To that end, please **continue to participate in the [HotelsACT Action Alert](#) reminding Congress that the time for them to act is now!**
